Objectives

I have completed Bachelor in Computer Science and Engineering and currently working as a Junior Software Engineer at WEB SOFT BD, I aim to leverage my academic, research and professional skills and passion to pursue and enrich career through contributing to the community and technology-based organization. I believe my achievements associated with software development, data analysis, and innovative problem- solving skill will be potential to achieve the organizations ultimate goals. I strongly believe that my dynamic learning and adaption skill with a keen research interest in related to Human-AI interaction and the integration of machine learning will be valuable for your organization in years to come.

Education

Bachelor of Computer Science and Engineering (GPA: 3.83/4.00)

2020 - 2024

International University of Business Agriculture and Technology

Higher Secondary Education, Science Department (GPA: 4.83/5.00)

2019

Shaheed Bulbul Govt. College, Pabna

Skills

- **Programming Language Proficiency:** Python
- **Other programming languages:** C++, C, C#, PHP, Java
- **Web Development:** Django, (DRF) Django REST Framework, Next.js, Vue.js, HTML, CSS, Tailwind, Bootstrap, Laravel, .net,
- **Web Application Deployment & Server Management:** cPanel Hosting, VPS Configuration & Maintenance
- **Understanding of Computer Systems:** Computer Architecture, Operating Systems, Networks, Database Management, DSA
- **Soft Skills:** Effective communication, Teamwork, Time-Management, Adaptability, Client Requirements Analysis
- **Research Interest:** ML, AI, Human Centered Computing
- **Teaching:** Teaching Assistant in Computer Science and Engineering Department at IUBAT, academic mentor at IUBAT

Work Experience

WEB SOFT BD | Asst. Software developer

Jan 2025 - Present

As an Assistant Software Developer at Web Soft BD, I develop, maintain, and optimize web applications, working with databases, APIs, and backend services. I collaborate with team members to build scalable solutions, troubleshoot issues, and improve system performance. I also deploy and maintain applications on cPanel and VPS servers, ensuring reliable and secure operation of live systems.

Department of Computer Science and Engineering, IUBAT | Teaching Assistant

Jan 2023 - Jun 2024

As a Teaching Assistant, I assisted faculty members in conducting classes, preparing academic materials, and supporting students with coursework and programming-related topics. I conducted mentoring sessions, guided students during lab classes, and helped learners from both the CSE department and other departments overcome academic and technical challenges. I also assisted with assignment evaluation and contributed to creating a supportive and effective learning environment.

Language

- English (Proficient in Listening, Writing and Speaking)
- Bengali (Native)

Certifications

- **Teaching Assistant Certificate:** Department of Computer Science and Engineering, IUBAT, 2024
- **Supervised Machine Learning: Regression and Classification:** Coursera (By Stanford University, instructed by Andrew Ng), 2024
- **AI Python for Beginners:** Coursera, 2024
- **IUBAT Scholar Certificate:** IUBAT, 2021-2024
- **IT Olympiad Question Setter Certificate:** Recognized for contributing as a question setter in the Intra-University IT Olympiad, 2023

Academic Achievements

- I had been appointed as a Teaching Assistant from the CSE department at IUBAT for my good academic records (January 2023 -June 2024).
- Three times, I became a Scholar of IUBAT and received certificates.
- Academic Mentor.
- I had been awarded for participating in question setter for IT Olympiad.

Completed Projects

1. **Technical Journal | (<https://journal.rribd.org/>)**
Journal for River Research Institute (RRI), Bangladesh.
Designed and Developed a full-stack Journal Management platform for handling research publications and editorial workflows
 - Built features for manuscripts submission, editorial board management, and dynamic content updates
 - Ensured secure access and scalable backend architecture for academic publishing.
 - Implemented Payment Gateway and Google analytics
 - Django, Next.js, MySQL, Tailwind CSS, JavaScript, Google Analytics, Payment Gateway (SSLCOMMERZ), webhook

2. **Journal for Bangladesh Meteorological Department (BMD) | (<https://journal.bmd.gov.bd/>)**
Bangladesh Meteorological Department (BMD)
 - Centralized platform for research papers, editorial-board details, publishing news and dynamic content.
 - Upload research Articles, Publication listings, editorial board profiles, dynamic website, and secure browsing.
 - Django, HTML, MySQL, CSS, Bootstrap, JavaScript, TLS

3. **Route Optimization Service**
 - Built a production-grade route optimization API using Node.js 20, Express, TypeScript (strict mode), and Prisma ORM with PostgreSQL
 - Implemented real-road distance/time calculation via OpenRouteService API (Matrix + GeoJSON Directions)
 - Solved Vehicle Routing Problem (VRP) with time windows and service times using Google OR-Tools in Python (via child process)
 - Designed and developed end-to-end flow: input validation (Zod), optimization, persistence, real-road geometry extraction, and server-rendered Leaflet map visualization
 - Containerized with Docker + docker-compose; deployed on Render with free PostgreSQL
 - Key technologies: Node.js, TypeScript, Express, Prisma, Zod, OpenRouteService, OR-Tools (Python), Leaflet.js, Swagger, Docker

4. **Krisoker Dorpon | (<https://krisokerdorpon.com/>)**
 - A modern agricultural knowledge-sharing platform
 - Crop Advice & Guidance
 - Continuous learning through videos and articles.

5. **IT Agri Weather Solution Pvt. Ltd. | (<https://www.itagri.org/>)**
India & Bangladesh Joint venture
 - A digital platform for agricultural research, advisory, products, and smart solutions for farmers, researchers, and policymakers.
 - Django, HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, Mail Server

6. **MCERC - Meteorology, Climatology & Earth System Research and Consultancy (pvt.) Ltd. | (<https://mcerc.org/>)**
A renowned Weather and Agro-meteorological Consultancy Center in Bangladesh
 - Django, HTML, CSS, Bootstrap, Tailwind CSS, AOS, JavaScript, Vanilla JS, Mail Server

7. **INVENTURE | (<https://inventurearch.com/>)**
A renowned Architectural Development and builder company in Bangladesh
 - Used technologies: Django, HTML, CSS, Bootstrap, Tailwind CSS, Alpine.js, Mail Server
